

# School Food Activities in Vanuatu

This project sought to identify current school food provision activities in Pacific Islands countries, with a focus on the enabling policy environment and institutional and farmer capacity to better support the integration of local agriculture. This factsheet provides a snapshot of key findings identified for Vanuatu.

For more information on the findings from this project, please see the School Food Activity Database at [www.pacificschoolfoodnetwork.org](http://www.pacificschoolfoodnetwork.org) or scan the QR code.
